FRONT END DEVELOPER

OBJECTIVE

My Career Objective

Beginning my journey as a front end web developer, I intend to emphasize the importance of scalable and well documented code. Additionally, adding values through simple yet creative designs. Furthermore, I look forward to working collaboratively in any organization I find myself, however, I can also run with projects on my own.

EDUCATION

Federal University of Technology Akure (2017 - 2022)

Information Technology Student

PERSONAL PROJECTS

An Event Landing page (2021)

- A simple landing page template for an upcoming event, designed using HTML and CSS flexbox
