ADESANOYE ISIJOLA

Mobile App Developer (Flutter)

Owolabi lodge FUTA Northgate Akure, Ondo State 340110 • adeisijola7@gmail.com • +2348102748644

Results-driven Mobile App Developer specializing in Flutter and Firebase technologies. Led the development and refinement of cutting-edge mobile applications, seamlessly integrating Firebase to fortify app infrastructure with secure user registration, efficient data storage, and push notification capabilities. Instrumental in optimizing the codebase, resulting in improved load times and a subsequent increase in user engagement. Spearheaded the development of a React Native taxi booking application, focusing on innovative design and functionality enhancements to elevate overall user experience. As a Wordpress Developer, excelled in designing and customizing websites, consistently delivering optimal performance and responsiveness through advanced development strategies.

Areas of Expertise

- Mobile App Development
- Flutter Framework
- User Interface Design
- Cross-Platform Development
- Application Prototyping
- Software Architecture
- Front-end Development
- Widget Customization

- Dart Programming
- API Integration
- State Management
- Debugging & Troubleshooting
- Responsive Design
- App Deployment
- Mobile User Experience
- Widget Animation

- Testing & Quality Assurance
- Material Design Principles
- Performance Optimization
- Code Version Control
- Continuous Integration
- Mobile App Security
- Firebase Integration
- App Maintenance

Core Competencies

- ✓ **Flutter Framework Mastery:** Adept in utilizing the Flutter framework to design and implement mobile applications, showcasing proficiency in leveraging its UI toolkit and ensuring optimal user experiences.
- ✓ **Cross-Platform Expertise:** Demonstrated ability to develop cross-platform mobile applications, utilizing Flutter to create seamless and consistent user interfaces across both Android and iOS platforms.
- ✓ **Programming Language Proficiency:** Fluent in relevant programming languages such as Dart, essential for Flutter app development, and possesses a comprehensive understanding of other languages and technologies commonly used in mobile app development.
- ✓ **User Experience Design Capability:** Skilled in translating design specifications into functional, visually appealing user interfaces, with a focus on creating intuitive and user-friendly experiences for app users.
- ✓ **Problem-Solving and Debugging Skills:** Exhibits strong problem-solving skills, including the capability to identify and debug issues in the development process. Familiarity with testing methodologies to ensure the reliability and performance of mobile applications.

Work Experience

HomeRadar – Fiverr (MVP)   **Mar 2024 – Apr 2024**
Mobile App Developer (Flutter & Firebase)
- Developed the Minimum Viable Product for HomerRadar, utilizing Flutter and Firebase to create an intuitive platform tailored for Delaware, USA users seeking rental properties.
- Integrated Firebase seamlessly to facilitate user registration and property listing, streamlining the rental search process.
- Collaborated closely with the team to ensure smooth integration of features, contributing to the app's overall functionality and user experience.
- Leveraged the capabilities of OpenStreetMaps to provide users with accurate location data, enhancing the precision of property searches.
- Prioritized performance, security, and UX best practices throughout the development process, ensuring a high-quality experience for users.

Chronogram – Zurich, CH (Remote)   **Jan 2022 – Feb 2024**
Mobile App Developer (Flutter & Firebase)
- Spearheaded the conception and refinement of cutting-edge mobile applications using Flutter and Firebase technologies, driving a marked improvement in user interface and experience.
- Orchestrated the seamless integration of Firebase, fortifying the mobile app infrastructure with secure user registration, efficient data storage, and effective push notification capabilities.
- Engineered optimizations within the codebase, culminating in a 15% reduction in load times and a subsequent 20% surge in user engagement, attesting to a keen focus on enhancing overall app performance.
- Fostered collaborative partnerships with cross-functional teams, facilitating the smooth integration of features and contributing to an elevated standard of app functionality and responsiveness.

Faith Heroic Generation Enterprise – Akure, Nigeria   **Dec 2021 – Jun 2022**
Student Industrial Work Experience Scheme (SIWES)

- Pioneered the development of the "Metrol" taxi booking application utilizing React Native, thereby elevating the overall user experience and satisfaction levels through innovative design and functionality enhancements.
- Orchestrated the seamless integration of advanced real-time location tracking and secure payment features, ensuring a streamlined and secure service delivery for users.
- Directed and executed comprehensive user testing protocols, resulting in a noteworthy 25% improvement in app usability. Collaborated closely with a cross-functional development team to implement user-driven enhancements successfully.
- Exhibited strong problem-solving acumen by promptly resolving app-related issues and delivering regular progress reports to stakeholders, showcasing a commitment to project transparency and success.

Marketing Matters Services – Texas, USA (Remote)   **Mar 2019 – Dec 2021**
Wordpress Developer
- Spearheaded the design and customization of WordPress websites, focusing on achieving optimal performance and responsiveness through meticulous development strategies.
- Cultivated collaborative partnerships with clients, engaging in comprehensive discussions to elicit and comprehend their unique requirements, and subsequently delivering tailored solutions that exceeded expectations.
- Effectively oversaw the concurrent management of multiple WordPress projects, demonstrating adept multitasking abilities and consistently achieving project milestones within established timelines.
- Implemented and adhered to industry-leading WordPress best practices, employing advanced techniques for performance optimization and code quality enhancement, ensuring the delivery of websites that consistently surpassed industry standards.

Education

B. Tech, Information Technology – Federal University of Technology Akure, Akure, Nigeria   **Dec 2022**
GPA [4.55/5.0]
- **Thesis:** Development of A Cross Platform Mobile Application For Campus Ride Bookings
- **Relevant Coursework:** Software Construction SEN 306, IT Project Management IFT 306, Research Methodology IFT 509

West African Senior School Certificate Examination (WASSCE) – Immaculate College Ifon, Ifon, Nigeria
Dec 2016

Leadership & Activities

Association of Information Technology Students (AITS) – Akure, Nigeria   **Jan 2021 –**
Dec 2021
General Secretary
- Assumed the role of General Secretary at the Association of Information Technology Students (AITS) in Akure, Nigeria, demonstrating adept management of administrative responsibilities such as meticulous record-keeping and seamless communication.
- Managed and executed the organization's administrative functions, fostering an efficient environment by overseeing record-keeping and communication processes.
- Orchestrated and directed meetings with precision, ensuring seamless communication and collaboration among members while serving as the pivotal coordinator for the Association of Information Technology Students (AITS) in Akure, Nigeria.
- Played a key role in the strategic planning and flawless execution of various IT-related events and activities for the student body, showcasing a proactive and collaborative approach within the Association of Information Technology Students (AITS) in Akure, Nigeria.

Language

- **English:** Proficient
